

## Member Minute Business Spotlight

February- 2018

### Who is SNI, Inc.?

**SNI, Inc. opened its doors in March of 1992 for custom machining in the Medical and Aerospace industry.**

Within the first few months, Steve had to rapidly add employees and increase the number of machines the company owned. Within 3 years the company needed more space and had grown to 6 employees. Currently, they are located in a 12,250 sq. feet facility in Beavercreek.

### How has River Valley partnered with you over the years?

SNI, Inc. and River Valley have been partners for over 10 years. The partnership has allowed SNI, Inc. to purchase the machines needed to handle the complex workload. Working with River Valley has allowed the company to refinance their commercial real estate with a favorable rate and term.

### What do you do in your non-work time?

Steve loves to watch his two kids, Brooke and Josh, take over the family business. He also enjoys spending time with his 4 grandchildren, golfing, tinkering with old cars, boating and fishing at Norris Lake in Tennessee with his family.

### Who has been your greatest inspiration and why?

My Father, Larry Nuttall. He was a family man, hard worker, honest and could do anything. He always told me I could do anything I put my mind too, but when you decide to do something do it right the first time.

### What advice would you give someone wanting to start a business?

First, you must love what you do. It's not a job; it's a passion. You must be prepared to work long hours and make sacrifices. Have a financial business plan, a targeted customer base and execute it. You must partner with a lending institution that will actually be a partner in your business such as River Valley has been for us. You also need to have strong family support and treat your staff like family, they are the key to your success.
